The Group is the Worldwide Information Technology Partner for the Olympic & Paralympic Games and is listed on the Euronext Paris market. Atos operates under the brands Atos, Atos Consulting, Atos Worldgrid, Bull, Canopy, Unify and Worldline.

Job Description

We are seeking talented individuals to join our Global Consulting Team as Junior Business Consultants.

Successful candidates will be working with clients who operate large scale enterprise IT Infrastructures. This is an opportunity to join some of the smartest professionals and showcase your skills by working with a client list that consists of some of the international most respected household brand names.

Our Business Consultants are among the best in the world, and we'll give you all the training, mentoring and support you'll need to join them.

Why you should join us:

- Participation in the international challenging IT activities along with opportunity of implementing own ideas and improvements
- Internal and external technology trainings
- Access to our knowledge library and interdisciplinary IT e-learning portals
- Mentoring and coaching from senior colleagues
- Foreign languages courses
- Private medical care, life insurance and Benefit program (including Multisport card).

What you will be doing in your job:

- Advise our Clients regarding innovative IT solutions, describe complex solutions in meaningful business language that engages business stakeholders
- Help our clients derive real value through people, process and technology development- pushing their organizations forward at the ever increasing pace they need to survive in today's rapidly changing world
- Develop and share experience and expertise with clients in some of the world's leading businesses and provide informed insights to help them anticipate and manage change
- Work closely with other Business Consultants and projects teams to perform small - large system changes.

Whether you choose to develop your skills in digital technology consulting, programming or coding; IT strategy and transformation, IT security or business/artificial intelligence, you will be at the forefront of the application of technology that is driving the ever increasing changes in today's most successful businesses.

Job Requirements

- Bachelor or Master's degree in relevant area;
- Comfortable with information technology, systems and data;
- Knowledge of one relevant area e.g.:
 - Business/Artificial Intelligence;
 - Automation and Robotics
 - IT Governance, Risk, Audit & Compliance ;
 - Cloud/Devops environments;
 - Digital Technology
 - Change Management
 - Web and mobile applications development/design;
 - Salesforce or other CRM technologies
 - IT Strategy and Transformation.
- Willingness to learn new systems and processes and use of appropriate technology
- Confident communication skills and service quality oriented
- Mobile internationally
- Fluent in English and ideally another European language especially German, Spanish or French
- Base Location: Anywhere in Poland close to a city with an international airport - Warszawa, Wrocław, Kraków preferred.

Why apply?

Our diverse portfolio of clients and businesses will allow you to rapidly develop and broaden your skill set to progress your consultancy career, with plenty of scope to contribute fresh ideas and make a measurable difference.

We offer work in an international environment, a competitive salary package, relocation bonus (according to the internal procedures), private medical care, life and disability insurance. Learning & Development / Coaching and mentoring sessions with Senior Consultants are also available.
